AUSTRALIAN AND NEW ZEALAND JOURNAL OF MEDICINE

(formerly Australasian Annals of Medicine)

published by

THE ROYAL AUSTRALASIAN COLLEGE OF PHYSICIANS

VOLUME 3, 1973, NUMBERS 1-6

HONORARY EDITOR: CHARLES KERR

BOARD OF MANAGEMENT

J. L. FREW, R. J. MULHEARN, ALAN P. SKYRING, S. J. M. GOULSTON
BRYAN HUDSON, H. W. GARLICK, A. KERR GRANT, G. L. McDONALD, JOHN SANDS

REGIONAL REPRESENTATIVES

New South Wales: C. R. B. BLACKBURN, J. P. CHALMERS

Australian Capital Territory: H. M. WHYTE, K. J. GOULSTON, J. HAMMETT

Queensland: B. T. EMMERSON, ERIC SAINT, C. B. CAMPBELL

Victoria: SIR MACFARLANE BURNET, BRYAN HUDSON

Tasmania: A. G. BAIKIE, G. M. McLEOD

South Australia: J. A. BONNIN, A. G. WANGEL

Western Australia: R. A. JOSKE

New Zealand: J. D. SINCLAIR

Papua New Guinea: I. MADDOCKS

Subject Index to Volume 3

ABO blood groups in primary carcinoma of the liver, 129
Aboriginal children, Australian, fatal diarrhoeal disease in, 255
Aborigines, Australian, enteric disease in young, 576
Acid
  orotic, 417
  secretion, gastric, effect of smoking on, 251
Adenomas, nonfunctioning chromophobe, clinical features of, 371
Aetiology of hypertrophic pulmonary osteoarthropathy in bronchogenic carcinoma: lack of relationship to elevated growth hormone levels, 157
Alcoholic hepatitis, acute, in Singapore: a comparison with Western series, 272
Alpha$_1$-antitrypsin deficiency, homozygous, and Hashimoto's thyroiditis, 516
Amenorrhoea, primary, and a pituitary tumour with isochromosome for the short arm of X, 617
Anaesthetised dogs, comparison of cardiovascular effects of ouabain and proscillaridin, 404
Analgesic nephropathy, experimental, medullary ischaemia in, the pathogenesis of renal papillary necrosis, 580
Angiographic contrast media on aortic regurgitation in the sedated dog, the effect of haemodynamic changes induced by, 174
Aortic, regurgitation in the sedated dog; the effect of haemodynamic changes induced by angiographic contrast media on, 174
Antibodies, parietal cell, and gastrin, 214
Anticonvulsants, plasma levels of, 290
Anti-tuberculous drugs
  hypersensitivity to, 311
  predictability of hypersensitivity to, 239
Arterial hypoxaemia in acute myocardial infarction, 593
Arteriovenous communications in infants and children, intracranial, and congestive cardiac failure, 598
Arthritis, rheumatoid, gold serum levels during treatment with gold sodium thiomalate, 461
Arthropathy, neuropathic; a report of two cases, 587
Asthma
  childhood, factors determining the shape of maximum expiratory flow-volume curves in, 557
  chronic, substitution of corticotrophin for corticosteroid in the treatment of children and adults with, 6
  daily attendance, relationships between weather parameters, spore count and pollen count, 552
  how reversible is, pulmonary function during clinical remission of,
  pulmonary function during clinical remission of, how reversible is asthma? 545
Asthmatic attacks, some factors that precipitate, 620
Atrioventricular block, complicating acute myocardial infarction, prognostic factors in, 14
Australian aboriginal children, fatal diarrhoeal disease in, 255
Australian aborigines, young, enteric disease in, 576
Auto-antibodies in cirrhosis and hepatocellular carcinoma, 268
Bacterial flora, duodenal, and bile salt patterns in patients with gastrointestinal disease, 339
B-2-thienylalanine, effect of feeding, on phenylalanine metabolism in the rhesus monkey, 169
Bile
  duct carcinoma in chronic ulcerative colitis, 264
  salt patterns and duodenal bacterial flora in patients with gastrointestinal disease, 339
  salts, non-exponential excretion and increased rate of loss in patients with tropical sprue and ileectomy, 260
Bleeding diathesis, newly defined, Von Willebrand's disease—Type B, 225
Block
  atrioventricular, complicating acute myocardial infarction, prognostic factors, 14
  right bundle branch, complicating acute myocardial infarction, prognostic factors, 25
Blood, ABO groups, in primary carcinoma of the liver, 129
Bone marrow
  human, effect of trimethoprim on folate metabolism in, 245
  normal human, studies on the proliferative capacity of the in-vitro colony forming cell, 361
Bradycardia, in acute myocardial infarction, 205
Bronchiectasis, non-terminal saccular, caused by bronchogenic carcinoma, 200
Bronchogenic carcinoma
  aetiology of hypertrophic pulmonary osteoarthropathy in, lack of relationship to elevated growth hormone levels, 157
  causing non-terminal saccular bronchiectasis, 200
Bundle-branch block, right, complicating acute myocardial infarction, prognostic factors, 25

Calcitonin, porcine, use in osteoporosis, 285
Caloric restriction and fenfluramine, the effects on weight loss, personality profiles of patients with long standing obesity, 131
Cancer immunity, implications of, 71
Candidiasis, pulmonary, treated with 5-fluorocytosine, 189
Carbenoxolone, effect on ionic fluxes across normal gastric mucosa and that associated with gastric ulcer, 451
Carcinoma
  bile duct, in chronic ulcerative colitis, 264
  bronchogenic, aetiology of hypertrophic pulmonary osteoarthropathy in, lack of relationship to elevated growth hormone levels, 157
  bronchogenic, causing non-terminal saccular bronchiectasis, 200
  hepatocellular, and cirrhosis, auto-antibodies in, 268
  primary, of the liver, ABO blood groups in, 129
  thyroid, computer diagnosis of, 614
Cardiac
  intoxication with digitalis in patients being admitted to hospital, prospective survey of incidence of, and correlation with serum digoxin levels, 279
  failure, congestive, and intracranial arteriovenous communications in infants and children, 598
  arrest in the coronary care unit, 393

Cardiovascular effects, a comparison of proscillaridin and ouabain in anaesthetised dogs, 404
Catecholamine essential hypertension, high; clinical and physiological characteristics, 117
Chromophobe adenomas, nonfunctioning, clinical features of, 371
Chromosomes and lymphocyte transformation in long-term use of oral contraceptives, 572
Cirrhosis and hepatocellular carcinoma, auto-antibodies in, 268
Coagulation, disseminated intravascular, and acute respiratory failure, microembolism syndrome, 495
Colitis, chronic ulcerative, bile duct carcinoma in, 264
Colony forming cell, in vitro, proliferative capacity in normal human bone marrow, 361
Computer diagnosis of thyroid carcinoma, 614
Congestive cardiac failure and intracranial arteriovenous communications in, infants and children, 598
Continuing education for physicians, an experiment in, 512
Contraceptives, oral, a study of chromosome and lymphocyte transformation in long-term use, 572
Coronary care unit
  cardiac arrest in, 393
  long term prognosis following treatment in a, 31
Coronary heart disease, in young men: a study of seventy patients with a critical review of aetiological factors, 39
Corticosteroid substituted by corticotrophin in the treatment of children and adults with chronic asthma, 6
Corticotrophin substituted for corticosteroid in the treatment of children and adults with chronic asthma, 6

Depression, management in consultant medical practice, 89
Dialysis, peritoneal; glucose absorption and hyperglycaemia during, 1
Diarrhoeal disease, fatal, in Australian aboriginal children, 255
Digitalis, cardiac intoxication with, in patients being admitted to hospital, prospective survey of incidence and correlation with serum digoxin levels, 279
Digitalised patients, digoxin concentrations in the serum and myocardium of, 400
Digoxin
  concentrations in the serum and myocardium of digitalised patients, 400
  serum concentration, therapeutic, relation to age, weight, sex, serum creatinine level, 606
  serum levels, a prospective survey of the incidence of cardiac intoxication with digitalis in patients being admitted to hospital and correlation with, 279
Drugs
  anti-tuberculous, hypersensitivity to, 311
  anti-tuberculous, predictability of hypersensitivity to, 239
  certain, effect on the plasma binding of phenytoin, 377
Duodenal bacterial flora and bile salt patterns in patients with gastrointestinal disease, 339
Dyshormonogenetic goitre, malignant changes due to an isolated thyroglobulin deficiency, 184
Dystrophy, muscular pseudohypertropic, of childhood, epidemiological survey in Victoria, 142

Education
  continuing, for physicians, an experiment in, 512
  postgraduate medical, for general practitioners, 307
  postgraduate medical, problems of, 230
Enteric disease in young Australian aborigines, 576
Erythematosus, systemic lupus, in a Chinese woman presenting with gangrene of the fingers, 19
Excretion
  non-exponential, of bile salts and increased rate of loss in patients with tropical sprue and ileectomy, 260
  of trimethoprim and sulphamethoxazole in patients with renal failure, 383
Expiratory flow-volume curves, maximum, factors determining the shape in childhood asthma, 557
Eye changes of thyrotoxicosis, immunological studies of the, 162

Fenfluramine and caloric restriction, the effects on weight loss, personality profiles of patients with long standing obesity, 131
Fibroma, intramural, of the heart, successful removal of, 193
5-fluorocytosine, pulmonary candidiasis treated with, 189
Folate metabolism in human bone marrow, effect of trimethoprim on, 245

Gangrene of the fingers, systemic lupus erythematosus in a Chinese woman presenting with, 197
Gastric
  acid secretion, effect of smoking on, 251
  mucosa, gastrin and age, 152
  mucosa, normal and that associated with gastric ulcer, effect of carbenoxolone on ionic fluxes across, 451
  ulcer, effect of carbenoxolone on ionic fluxes across normal gastric mucosa and that associated with, 451
Gastrin
  age and the gastric mucosa, 152
  and parietal cell antibodies, 214
  serum, value in the diagnosis of the Zollinger-Ellison Syndrome, 349
Gastrointestinal
  disease, duodenal bacterial flora and bile salt patterns in patients with, 339
  distress, functional, effect of medazepam in relieving symptoms of, 457
Glucose absorption and hyperglycaemia during peritoneal dialysis, 1
Goitre, dyshormonogenetic, malignant changes arising due to an isolated thyroglobulin deficiency, 184
Gold
  levels in serum during the treatment of rheumatoid arthritis with gold sodium thiomalate, 461
  sodium thiomalate, gold levels in serum during the treatment of rheumatoid arthritis with, 461
Growth hormone levels, elevated, lack of relationship to, aetiology of hypertrophic pulmonary osteoarthropathy in bronchogenic carcinoma, 157

Haemodynamic changes induced by angiographic contrast media, effect on aortic regurgitation in the sedated dog, 174
Haemolysis and its relation to vitamin E deficiency in human liver disease, 355

Hashimoto's thyroiditis and homozygous alpha$_1$-antitrypsin deficiency, 516
Heart
block, atrioventricular, complicating acute myocardial infarction, prognostic factors, 14
block, right bundle branch, complicating acute myocardial infarction, prognostic factors, 25
disease, coronary, in young men, study of 70 patients with critical review of aetiological factors, 39
disease, ischaemic, double blind cross-over study of the inotropic influence of Tiprenolol (DU21445) and Propranolol in patients with, 467
successful removal of an intramural fibroma of the, 193
Hepatitis
active chronic, incidence of oxyphenisatin ingestion in, a retrospective controlled study of 29 patients, 124
chronic, immunopathogenesis of, 79
acute alcoholic, in Singapore—a comparison with Western series, 272
Hepatocellular carcinoma and cirrhosis, auto-antibodies in, 268
Homozygous alpha$_1$-antitrypsin deficiency and Hashimoto's thyroiditis, 516
Hormone levels, elevated growth, the aetiology of hypertrophic pulmonary osteoarthropathy in bronchogenic carcinoma: lack of relationship to, 157
Hospitals in population medicine, future relationships of, 63
Hyperglycaemia and glucose absorption during peritoneal dialysis, 1
Hypersensitivity
to anti-tuberculous drugs, 311
to anti-tuberculous drugs, predictability of, 239
Hypertension, high catecholamine essential; clinical and physiological characteristics, 117
Hypertrophic pulmonary osteoarthropathy, the aetiology of, in bronchogenic carcinoma: lack of relationship to elevated growth hormone levels, 157
Hypotension, orthostatic, the use of a new mode of therapy in the management of, 180
Hypoxaemia, arterial, in acute myocardial infarction, 593

Idiopathic thrombocythaemia; a review of seven cases in Western Australia, 486
IgA deficiency, selective; the clinical significance of, 565
Ileectomy and tropical sprue, increased rate of loss and non-exponential excretion of bile salts in patients with, 260
Immunity, cancer, implications of, 71
Immunological studies of the eye changes of thyrotoxicosis, 162
Immunopathogenesis of chronic hepatitis, 79
Infection, risk with scalp vein needles—a prospective study, 389
Ingestion, oxyphenisatin, the incidence in active chronic hepatitis: a retrospective controlled study of 29 patients, 124
Inotropic influence of tiprenolol (DU21445) and propranolol in patients with ischaemic heart disease; double blind cross-over study, 467
Intoxication, cardiac, with digitalis in patients being admitted to hospital and correlation with serum digoxin levels, a prospective survey of the incidence of, 279
Intracranial arteriovenous communications in infants and children, and congestive cardiac failure, 598
Intramural fibroma of the heart, successful removal of an, 193
Intravascular coagulation, disseminated, and acute respiratory failure, microembolism syndrome, 495
Ionic fluxes across normal gastric mucosa and that associated with gastric ulcer, effect of carbenoxolone on, 451
Ischaemia, medullary, in experimental analgesic nephropathy, the pathogenesis of renal papillary necrosis, 580
Ischaemic heart disease;
double blind cross over study of the inotropic influence of tiprenolol (DU21445) and propranolol in patients with, 467
Isochromosome for the short arm of X with primary amenorrhoea and a pituitary tumour, 617
In vitro colony forming cell in normal human bone marrow, proliferative capacity, 361

Kanamycin dosage in renal failure, 474

L-dopa, the treatment of progressive supranuclear palsy with, 413
Liver disease, human, vitamin E deficiency and its relation to haemolysis, 355
Lupus erythematosus, systemic, in a Chinese woman presenting with gangrene of the fingers, 197
Lymphocyte transformation and chromosomes in long-term use of oral contraceptives, 572

Malignant changes arising in a dyshormonogenetic goitre due to an isolated thyroglobulin deficiency, 184
Medazepam, effect in relieving symptoms of functional gastrointestinal distress, 457
Medical education, postgraduate,
for general practitioners, 307
problems of, 230
Medical needs of society, meeting the, 67
Medicine, population, future relationships of hospitals in, 63
Medullary ischaemia in experimental analgesic nephropathy, the pathogenesis of renal papillary necrosis, 580
Metabolism
folate, in human bone marrow, effect of trimethoprim on, 245
phenylalanine, in the rhesus monkey, effect of feeding B-2-thienylalanine on, 169
urate, alteration by weight reduction, 410
Microembolism syndrome; acute respiratory failure and disseminated intravascular coagulation, 495
Mucosa
gastric, gastrin and age, 152
normal gastric, and that associated with gastric ulcer, effect of carbenoxolone on ionic fluxes across, 451
Muscular dystrophy, pseudohypertrophic, of childhood; an epidemiological survey in Victoria, 142
Myocardial infarction, (see also CCU)
acute, arterial hypoxaemia in, 593
bradycardia in, 205

complicated by atrioventricular block, prognostic factors, 14
complicated by right bundle-branch block, prognostic factors, 25
Myocardium and serum of digitalised patients, digoxin concentrations in, 400

Necrosis, renal papillary, pathogenesis of, medullary ischaemia in experimental analgesic nephropathy, 580
Needles, scalp vein, prospective study of the risk of infection with, 389
Nephropathy, experimental analgesic, medullary ischaemia in the pathogenesis of renal papillary necrosis, 580
Neuropathic arthropathy; a report of two cases, 587

Obesity, long standing; the effects of caloric restriction and fenfluramine on weight loss, personality profiles of patients with, 131
Ocular anomalies in Seckel's syndrome, 520
Oral contraceptives, study of chromosomes and lymphocyte transformation in long term use, 572
Orotic acid, 417
Orthostatic hypotension, the use of a new mode of therapy in the management of, 180
Osteoarthropathy, the aetiology of hypertrophic pulmonary, in bronchogenic carcinoma: lack of relationship to elevated growth hormone levels, 157
Osteoporosis, use of porcine calcitonin in, 285
Ouabain and proscillaridin in anaesthetised dogs, comparison of cardiovascular effects, 404
Oxyphenisatin ingestion, incidence in active chronic hepatitis: a retrospective controlled study of 29 patients, 124

Palsy, progressive supranuclear, treatment with L-Dopa, 413
Papillary necrosis, renal, the pathogenesis of; medullary ischaemia in experimental analgesic nephropathy, 580
Parietal cell antibodies and gastrin, 214
Peritoneal dialysis; glucose absorption and hyperglycaemia during, 1
Personality profiles of patients with long standing obesity, effects of caloric restriction and fenfluramine on weight loss, 131
Phenylalanine metabolism in the rhesus monkey, effect of feeding B-2-thienylalanine on, 169
Phenytoin, the effect of certain drugs on the plasma protein binding of, 377
Physicians, an experiment in continuing education, 512
Pituitary
tumour and primary amenorrhoea with isochromosome for the short arm of X, 617
—adrenal function, experience with a short test of, 507
Plasma
levels of anticonvulsants, 290
protein binding of phenytoin, the effect of certain drugs on, 377
Pollen count, weather parameters, spore count and daily asthma attendance, the relationships between, 552
Population medicine, future relationships of hospitals in, 63
Porcine calcitonin, use in osteoporosis, 285
Postgraduate medical education for general practitioners, 307
problems of, 230
Proliferative capacity of the in-vitro colony forming cell in normal human bone marrow, 361
Propranolol and tiprenolol (DU21445), the inotropic influence in patients with ischaemic heart disease; double blind cross over study, 467
Proscillaridin and ouabain, comparison of cardiovascular effects in anaesthetised dogs, 404
Protein selectivity in the assessment of patients with proteinuria, 480
Proteinuria, protein selectivity in the assessment of patients with, 480
Pseudohypertrophic muscular dystrophy of childhood: an epidemiological survey in Victoria, 142
Pulmonary
candidiasis treated with 5-fluorocytosine, 189
function during clinical remission of asthma, how reversible is asthma; 545
osteoarthropathy, hypertrophic, aetiology in bronchogenic carcinoma, lack of relationship to elevated growth hormone levels, 157
Renal
failure, excretion of trimethoprim and sulphamethoxazole in patients with, 383
failure, kanamycin dosage in, 474
papillary necrosis, the pathogenesis of, medullary ischaemia in experimental analgesic nephropathy, 580
Respiratory failure, acute and disseminated intravascular coagulation, microembolism syndrome, 495
Rheumatoid arthritis, gold levels in serum during treatment with gold sodium thiomalate, 461

Saccular bronchiectasis, non-terminal, caused by bronchogenic carcinoma, 200
Scalp vein needles; prospective study of the risk of infection with, 389
Seckel's syndrome, ocular anomalies in, 520
Serum
and myocardium digoxin concentrations in digitalised patients, 400
creatinine level, age, weight and sex in relation to therapeutic serum digoxin concentrations, 606
digoxin concentration, therapeutic, relation to age, weight, sex, serum creatinine level, 606
digoxin levels, prospective survey of incidence of cardiac intoxication with digitalis in patients being admitted to hospital and correlation with, 279
gastrin, value in the diagnosis of the Zollinger-Ellison syndrome, 349
gold levels during the treatment of rheumatoid arthritis with gold sodium thiomalate, 461
Society, meeting the medical needs of, 67
Sodium thiomalate, gold, gold levels in serum during the treatment of rheumatoid arthritis with, 461
Smoking, effect on gastric acid secretion, 251
Spore count, pollen count, weather parameters and daily asthma attendance, 552
Sprue, tropical and ileectomy, increased rate of loss and non-exponential, excretion of bile salts in patients with, 260
Sulphamethoxazole and trimethoprim, excretion in patients with renal failure, 383
Supranuclear palsy, progressive, treatment with L-dopa, 413

Systemic lupus erythematosus in a Chinese woman presenting with gangrene of the fingers, 197

Thrombocythaemia, idiopathic; a review of seven cases in Western Australia, 486
Thyroglobulin deficiency, isolated malignant changes arising in a dyshormonogenetic goitre due to, 184
Thyroid carcinoma, computer diagnosis of, 614
Thyroiditis, Hashimoto's, and homozygous alpha$_1$-antitrypsin deficiency, 516
Thyrotoxicosis, immunological studies of the eye changes of, 162
Tiprenolol (DU21445) and propranolol, the inotropic influence in patients with ischaemic heart disease; double blind cross over study, 467
Trimethoprim
  effect on folate metabolism in human bone marrow, 245
  and sulphamethoxazole, excretion in patients with renal failure, 383
Tropical sprue and ileectomy, increased rate of loss and non-exponential excretion of bile salts in patients with, 260

Ulcer, gastric, effect of carbenoxolone on ionic fluxes across normal gastric mucosa and that associated with, 451
Ulcerative colitis, chronic, bile duct carcinoma in, 264
Urate metabolism, alteration by weight reduction, 410

Vein needles, scalp; prospective study of the risk of infection with, 389
Vitamin E deficiency in human liver disease and its relation to haemolysis, 355
Von Willebrand's disease, 305
  Type B, a newly defined bleeding diathesis, 225
Weather parameters, spore count, pollen count and daily asthma attendance, the relationships between, 552
Weight loss, in patients with long standing obesity, effects of caloric restriction and fenfluramine on, personality profiles, 131
Weight reduction, alteration of urate metabolism by, 410

Zollinger-Ellison syndrome, value of serum gastrin in the diagnosis of, 349
